

## Ozebus Update

### ADR 83 – IS YOUR OPERATION AFFECTED?

The deferral of the ADR 80/02 implementation date to February 29 does not apply to ADR 83, the design rule relating to noise.

The BIC has been actively working with DOTARS to have this oversight addressed so that affected Euro 3 vehicles will be able to be built under ADR 28/01.

If you have any comments on this issue please email [admin@bic.asn.au](mailto:admin@bic.asn.au) or participate in the OzeBus Forum thread regarding the issue at the Ozebus Website.
